COST • Performance, Q&A, Classroom resource and music you can use year-round: \$750

"The MathJam presentation was GREAT! The kids were engaged for the entire presentation. The kids actually danced all the way back to the classroom!...Thank you for making math fun!"

- Kathryn Huntsman, Teacher, Mississauga

Education Arts Canada's programming is consistently rated among the very highest in the field. EAC surveys hundreds of teachers every year to keep improving our programs. Surveyed teachers rated MathJam:

- ★ "Effective and engaging": **99%**
- ★ "A good learning experience": **96%**
- ★ "One of the best our school has had": **80%**

The **Juno-nominated MathJam series** was created in partnership with Nelson Education and math experts to make math fun with music. **MathJam Shape Caper** follows international shape expert, Sephira Shapiro, as she solves the mystery of shapes disappearing from landmarks around Canada. Dr. Shapiro and the students will need to use their brains, their bodies, and their singing voices to solve the mystery before it's too late!
